Percentage : 77%
- ◆ **Secondary Education**
Warren Academy School
2018 - 2019
Percentage : 80%

Certificates

- ✓ NPTEL - Foundation of R Software [\[Link\]](#)
- ✓ NPTEL - Programming in Modern C++ [\[Link\]](#)

About Me

Fluent in **Flutter and Dart** for building expressive, **feature-rich mobile applications**. Proven experience with a wide range of flutter packages and libraries to produce re-usable testable codebases.

Experienced in frontend development using React, proficiency in JavaScript and TypeScript, and skilled in HTML, CSS, and SCSS.

A **solid background in backend technologies** NodeJS, REST Api, Firebase. Self-starter keen to provide insights, grow with experienced minds, and craft forward-leading solutions that improve user experience.

Projects

► **Sonicity** [\[Link\]](#) (Flutter)

- A Flutter-based mobile application utilizing the JioSaavn API for an immersive audio experience, features modular architecture.
- **Dependencies Used** - audioplayer, audio_service, get, get_it, http, just_audio, shared_preferences, sqflite, and many more...
